Each year, as you know, I generate a spreadsheet of golf tournaments for golf coaches. Included on the spreadsheet are the dates and contact information of any tourneys that coaches send me to be put on the list. I will also include any regional preview events that are to be held on the regional sites if I am advised of them by the hosts. That spreadsheet usually comes out in August. If you have plans to host an event or know of one that another school is hosting, please let me know at the email above by sending a copy of the tourney invitation ASAP so that it can be included it on the spreadsheet. When the spreadsheet comes out, it will also be posted on the website above for the information of coaches and interested parties not on our master email list.

Feel free to contact me by mail, email or phone at the above addresses/phone numbers. You may also contact any of the contacts cited above for more information particular to their area of expertise. I look forward to a successful 2017-18 and wish all of you the best in the upcoming school year.

Sincerely yours,

Dick Logan
