The Baden Perfection® QB1™ Football

- **HIGH-VISIBILITY COLOR**
The lighter color makes the ball more visible at night under stadium lights.

- **OPTIMUM SIZE & SHAPE**
Made to the absolute minimum allowable size. The radius is engineered to the ideal ratio, making it easier to throw a spiral.

- **TRIGGER SEAMS™**
Raised seams so the finger has a “trigger” edge to produce faster-spinning spirals.

- **LONGER LACE**
Softer black lace extends further nose-to-nose than other footballs, placing the hand closer to the end of the ball, making the smallest legal ball feel even smaller.
