600 CONTEST IN FAST TRACK MEET

**Rosenberg Class B Winner;
Sherman Class A. Four
Records Broken**

Nosing out their nearest opponent, Austin High School, by the narrow margin of one point, Sherman High School won the eleventh Texas interscholastic track meet, held May 7 on Clark Field, by a score of 20 to 19. Six hundred individuals participated in the meet.

Third place was won by the representatives of Forest Avenue High school, Dallas, last year's champions, by a score of 16, and fourth place went to Santa Anna with 14 points to their credit.

Four Records Smashed.

Four records were broken, some of them comparing favorably with conference and national records.

J. Reese of Comanche High School broke the class A record for the 880-yard run, with 2 minute and 3 3-5 seconds.

The old record for this event was 2 minutes and 5 seconds.

Wilson, the Forest Avenue star, set a new record in the broad jump, class A, by going 23 feet and 1/2 inch, beating the old record by almost one and one-half feet.

Throws Discus Far.

In the discus throw Richerson of Sherman beat his former record of 123 feet and 5 inches by setting a new one of 139 feet and 3 inches.

Burgin of Yancey set the new record high jump by jumping 5 feet and 10 7-8 inches.

Austin Boy High Point Man.

Stanford of Austin High School was the high point man of the meet, winning a total of 12 3-4 points for his school.

Wilson of Forest Avenue is another man of whom great things are predicted.

His jumping has caused state-wide comment and his record compares favorably with any conference record.

Relay Is Exciting.

Perhaps the most exciting event of the meet was the mile relay won by Forest Avenue.

Sherman took the lead from the start and finished first, but was disqualified on account of fouling.

STATE WINNERS IN 11TH ANNUAL MEET

**Sherman District Conspicuous
for Number of State
Honors Taken**

Never before in the history of the League has any one district been so conspicuous as a state winner, as the results show the Sherman district to be this year. In addition to the Sherman track team's taking first honors, this district took first places in Declamation (High School), Junior Girls, Junior Boys, Senior Girls and Senior Boys, and third place in Senior Girls (Rural), while the Denison team took second place in Boys Debate. While this shows fine team work in the Sherman District and splendid cooperation on the part of the schools, we feel that special mention should be made of the efficient work of Harry L. Durham of White-wright, as District Director.

The following are winners in literary events and tennis in the Eleventh Annual State Meet held in Austin, May 5, 6, and 7:

Junior Boys' Declamation (High School)

1. Billie Ball, Whitewright.
2. Gerald Morgan, Hamlin.
3. Guerry Lynne, El Paso.

Junior Girls' Declamation (High School)

1. Lucille LaRoe, Whitewright.
2. Welcome Robson, Ganado.
3. Cylinda Kingle, Groesbeck.

Senior Boys' Declamation (High School)

1. DeWitt Rollins, Farmersville.
2. Tom Martin Davis, Austin High.
3. Bascom Merchant, Alvin High.

Senior Girls' Declamation (High School)

1. Jean Pendergrass, Leonard.
2. Empress Young, Abilene.
3. Marguerite Fisher, Wichita Falls.

Senior Girls' Declamation (Rural)

1. Dora Mae Carey, Robinson School, Waco.
2. Melverie Hunt, Aransas School, Inez.
3. Wilda McCollum, Hopewell School, Leonard, No. 3.

Junior Girls' Declamation (Rural)

1. Florence May Hunter, St. Paul.
2. Annie Mae Pagel, Brown, Hallettville.

349 SCHOOLS TAKE PART IN BIG MEET

**This Figure Represents an
Increase of 49 Over
1920 Meet.**

There were 349 schools represented by contestants in the State Meet held in Austin May 5, 6, and 7. This is 46 more schools than were represented at the Tenth Annual Meet in May, 1920. We take this increase as a sign that honors are being more evenly distributed in county and district meets and this shows keener contests and stronger competition.

The alphabetical list of Schools represented, follows:

Abilene, Alba, Albany, Alto Loma, Alto, Alvin, Alice, Alvord, Alvarado, Amarillo, Angleton, Annona, Arlington, Athens, Atlanta, Austin, Austwell, Austin (Dessau School).

Balmorea, Bangs, Barstow, Bartlett, Bartlett (Goodeville School), Batesville, Bay City, Beaumont, Benjamin, Beaumont (Amelia School), Bellville, Bertram, Bertram (Live Oak School), Bellevue, Bellaire, Belton, Belton (Tennessee Valley School), Beaumont (Rosedale School), Beaumont (South Park High), Biardstown, Big Foot, Bishop, Blossom (Milton School), Bomarton, Bonham, Boswell, Bowie, Bradshaw (Drasco School), Brady, Breckenridge, Brenham, Brownsville, Bryan (Harvey School), Buffalo Gap, Burkburnett.

Canyon, Caldwell, Carlsbad, Calvert, Carrizo Springs, Carthage, Celeste, Chandler (Edom School), Channing, Childress, Cisco, Clarksville, Claude, Cleburne, Clareville, Clifton (Norse School), Clifton, Cleveland, Clyde, Colorado, Coleman, Comanche, Corpus Christi, Courtney, Cooledge, Cooper (East Ward), Cooper, Crockett, Cuero.

Daingerfield (Jenkins School), Dallas (Oak Cliff), Dallas (Highland Park), Dallas (Forest Avenue High), Danbury, De Leon, Denison, Deer Creek, Dickinson, Dime Box, Donna, East Bernard, Eastland, Edna, Elbert, Electra, Electra (County Line School), El Paso, Enloe, Eustace.

**Liberal Contributions Flow In
From All Sections of the
the State**

The following individuals, organizations, and business firms are due the thanks of the League for contributing liberally to the expenses of the contestants and delegates to the state meet. With the funds so given, the League has been enabled to supplement the fee-fund, and thus pay a larger percentage of rebate than would have been otherwise possible. The Austin Chamber of Commerce and the Austin Clearing House Association contributed two hundred dollars each.

The following contributed one hundred dollars each:

Majestic Theater, Austin; A. G. Spalding & Bros., Dallas; Grayburg Oil Co., City National Bank, both of San Antonio; Lutch Stark, Orange.

The following contributed fifty dollars or more:

Stelfox Co., Butler Brick Works, McFadden Drug Store, Walter Tips, Hardware, Shear Co., of Austin; Sears, Roebuck & Co., Dallas; San Antonio Public Service Co.

The following contributed twenty-five dollars or more:

Robert Mueller, Walter Wilcox, C. & S. Sporting Goods, McNamara Bros., Carl Mayer, Harrells, J. R. Reed Music Co., Ben M. Barker, John Bremond, Driskill Hotel, Stebbins & James, Dillingham Shoe Co., C. B. Cook, Patton Auto Libery, Carl Barton, Lone Star Ice Co., Calcasieu Lumber Co., Quality Mills, Swann Furniture Co., W. J. Jones, Piggly Wiggly, Brown Brothers, Bennett Tarlton & Co., Heidenheimer Co., Bohn Bros., University Co-Op, Voss & Kooock, and Brown Cracker and Candy Co., all of Austin; Huey & Phelps, Dallas.

The following contributed twenty dollars or more:

Texas Trust Co., Woodie Gilbert Drug Co., Hirshfeld & Anderson, Dahlich Furniture Co., Looke's Cafe, all of Austin; and S. S. Searcy, San Antonio.

The following contributed fifteen dollars or more:

Burt Shoe Co., The Robbins Co., Bon Ton Cafe, Becker Lumber Co.,

THE STATE MEET

Each year since 1910, the League has held a state meet on the first Friday and Saturday in May. These occasions were little noted in the beginning, and did not even disturb the routine of the University vampus. It was not long, however, before they began to make a noise. At first, you had to look carefully around the University to find the meet; now you have to look carefully around the Meet to find the University. In fact the Meet has grown to such proportions during the past few years that two years ago, the Faculty of the University voted to dismiss all classes on Friday of the Meet in order that a sufficient number of auditoriums might be available for the public speaking contests and that members of the faculty might be free to serve as judges. With the growth of the State Meet there have been many problems arise which have to be met each year. Chief among these is the housing problem. The citizens of Austin have in late years responded very liberally with accommodations. The old S. M. A. barracks have been pressed into service, and this year Governor Neff generously permitted the use of the National Guard blankets and cots. And with all this help, there remains the problem of meeting the trains, conducting delegates and contestants to lodgings assigned, looking after their comforts as much as possible, and so on. In this work, the students of the University have done excellent service. Hundreds of students volunteer for this work, and help effectively. The Meet this year was generally pronounced the most successful ever held under the auspices of the League.

ANNUAL MEETING OF DELEGATES

The annual meeting of Interscholastic League delegates was held in the Law Building auditorium Saturday morning, 9 to 11, May 7. It was well-attended, and many matters touching the conduct of the League affairs were discussed. A financial statement of receipts and disbursements covering the period from May 1, 1920, to May 1, 1921, was made by the Chairman, E. D. Shurter, and was accepted by the meeting. The del-

egates further approved the recommendation of the State Chairman that in the future all disbursements be made by voucher-checks signed by the Chairman, or vice-Chairman, and the Treasurer. Payment from the fee fund for necessary expenses not covered by the University appropriation was authorized. Expenses of state contests in football, baseball and basketball, it was directed, should be conducted on a self-supporting basis. It was further directed, upon recommendation of the State Chairman, that the Treasurer prepare a statement of receipts and disbursements up to April 1 of each year for report at the annual meeting; such report to be audited either by the University Auditor or by a certified public accountant. The State executive committee was authorized to make the following changes in the Constitution and Rules: (1) Increase membership fees of high schools, Class B to \$5, and Class A to \$8; restore girls athletics to county meets; installation of division in Rural Track; elimination of applause from public speaking contests at state meet; elimination of third place winner in district meet from eligibility to state meet in track; installation of extempore speaking contest.

Authority was granted the Chairman to arrange for an Interscholastic League Exchange, with no expense to the League, a percentage of profits, if any, to go into the League rebate fund. The State Executive Committee was authorized to build up the subscription list to the Interscholastic Leaguer, profits therefrom to go into the League rebate fund.

NEXT YEAR'S DEBATE

The State Executive Committee has decided upon the following question for debate in the Interscholastic contest 1921-1922: "Resolved that all immigration into the United States should be prohibited for a period of two years." It is expected that this question will develop a very lively discussion. There is a great deal of material available on both sides, and debaters contemplating entering the debate next year will find it a good plan to address the Extension Loan Library, University Station, for material, and do their preliminary work during the summer months. We know of many debating teams that are already beginning to study the subject.

CO-OP OMITTED BY MISTAKE

In the preliminary and in the final program for the state meet, the name of the University Cooperative Store was omitted from the list of patrons. The "Co-op," as this institution is affectionately called in the University neighborhood has always been a generous supporter for the League, and we regret that the solicitor who received the Co-op's contribution failed to turn in the name to the editor of the programs.

Popular Astronomy Is Given By Correspondence

One of the most satisfactory correspondence courses offered by the EXTENSION TEACHING DIVISION of the University is that of Applied Mathematics 214b which is Popular Astronomy. The general student will gain much valuable information from the study of the oldest science, even though he may have little knowledge of mathematics, physics, or chemistry.

It is worthy of mention that students who have taken up the study of Popular Astronomy have, in a large majority of cases, carried the course to a satisfactory completion. The course has also proved to be popular for the reason that it may be used as an independent one-third college credit; then, too, the cultural aspect of the course for those desiring a study of descriptive astronomy is to be considered.

Astronomy has held its place in the sciences throughout the ages, for the study of the sun, moon, stars has proven to be intensely interesting to mankind from time immemorial.

District 30 Takes Lion's Share, Class B Honors

J. O. Webb, of Alvin, calls attention to the achievements of the Thirtieth District in the State Meet, May 5, 6, and 7:

"I wish to call attention to one feature of the State Meet in which I was especially interested, namely, the success of the 30th District. In the Class A Division we made no showing whatever, but in the B Division, our success was unusual. Of five schools ranking highest in this division, four of them were from this district, Rosenberg winning first, Alvin, Dickinson, and Palacios being among those that tied for second place. This gives the 30th District a total of 46 points and as far as I know, there is no other district that even approaches this number.

"It seems to me that because of this unusual achievement, the Houston District deserves some special mention, and I hope you will be able to give it such."

GOOD MEET IN SAN PATRICIO

"We have received the following letter from Mrs. Susan Sipes:

"You will find enclosed program of our County Interscholastic Meet, and under separate cover I am mailing you copy of paper that contains a full report of the Meet.

"We were indeed pleased with our Meet this year and in my opinion it was 100 per cent better than ever before. We feel that a great deal of the credit is due to the work done by Miss Stolfus and Mr. Henderson and the men of the University who are at the head of the Interscholastic League work. And I feel sure that I voice the sentiments of our people when I say that San Patricio County appreciates it all."

EDUCATIONAL CONTESTS

The following article was contributed by Roy Bedichek, vice chairman of the League, to the **Southwestern School Review**, and was published in its April, 1921, issue:

Does not the average adult get most of his education through some form of contest? Is not the normal healthy life just one competition after another? The window-dresser vies with his competitor across the street, the shoe repairer tries to do a better job than the man up the street, the automobile salesman tries to convince you that he has the best car and the best value, the lawyer is in a continual encounter of wits with the other lawyer.

In the development of life on the planet, competition has played the greatest role of all. The phrase 'Survival of the Fittest,' suggests the importance of competition in the scheme of evolution.

The University Interscholastic League utilizes the natural desire on the part of the normal child to compete, and the natural interest which any community has in any kind of a contest. It utilizes this principle of the contest for educational purposes, to teach pupils to spell, to run, jump, debate, declaim, and so on. The League endeavors to select only those contests which are educational in their nature, and it endeavors to so arrange the contest that a maximum of development for the child may be secured. For instance, in the spelling contest, we are not satisfied to take an ordinary spelling book as a basis of the contest. With an infinite deal of tedious work, we prepare each year a special list of words, based upon questionnaires sent out to thousands of Texas teachers, asking for words which their students commonly use and frequently misspell. From these returns, a list is compiled which is, we believe, the best list of words in existence at the present time for students between the ages of ten and twenty-one. To give an idea of the popularity of this list, we have issued so far this year eighty thousand copies.

In order that our declamation contests may be truly educational, we confine selections which may be used to the more classic authors. We have gone to the trouble this year of publishing a book of prose declamations and distributing a copy free to each school member, at the expense and through the courtesy of the Scottish Rite Masonic bodies of Texas. We have given away four thousand copies of this book, containing more than a hundred Americanization selections. For one division in the declamation contest, we prescribe poems, and in order that the selections may be standard, we have had a list compiled by experts, nearly five hundred selections in the list. If a child is to take the time and the trouble to memorize a selection, we believe that it should be a proper selection. This is again in line with

our policy of making every phase of the work really educational.

In the field of Physical Education, the League put on this year a state championship series in football, basketball, and track and field athletics. We believe this phase of the work is just as important, if not more important, than the contests which have to do with the development of the mind. A class or a nation or a race which allows the body to degenerate soon passes off the stage of history. The great peoples have always since the dawn of history been giant athletes. Witness the athletic nomads who mastered the sedentary population of the Tigris, Euphrates, and the Nile, only to be mastered by their hardy and roving cousins, when civilization, after a lapse of a few generations sapped their physical vigor. Witness the Greeks, the greatest people of antiquity, also the greatest athletes. Witness the hardy barbarian Germans who conquered the Romans when the latter became sick with culture and soft in body. Witness the ruling class of England today ruling the greatest part of the world from a little island no bigger than a few Texas counties—their muscles are hard as iron from constant indulgence in manly sports. We believe the body of the Texas youth should be strong and supple, clean and sweet, and free from taint. We know of no better way to attain this end than by encouraging clean athletic contests and games between the schools of the state.

There are four thousand Texas schools members of the League this year. More than 150 counties are organized. Through local contests, county contests, district contests, and through the final state contest, in the thirty-two districts of the state, thousands of boys and girls are stimulated to do their best in one or another event. More than ten thousand boys have participated so far in our basketball championship series. Nearly as many participated in football. Thousands are out now training in the track and field events.

If each of the four thousand schools has an average of ten students who try out in declamation, forty thousand students are making a beginning in public speaking, and so on.

We feel that this is a work with which every public school teacher should be familiar. Thousands of teachers are now helping. Indeed, it may be said to be a public school organization, as the work is officered and conducted almost entirely by public school teachers.

Man plays only where he is a human being in the fullest sense of the word, and he has reached full humanity only when he plays. This proposition will acquire great and deep significance when we shall learn to refer to it to the doubly serious ideas of duty and destiny. It will then sustain the entire superstructure of aesthetic and of the yet more difficult art of life.—Schiller.
