Throughout the state, the University Interscholastic League enjoys the active support of many college and university faculties, which provide an excellent staff and the very necessary facilities for the student activities conferences in the fall and the regional meets and other tournaments in the spring.

Many unselfish members of academic departments in mathematics, EDITOR'S NOTE—Shortly after dividuality, the diversity, and the reading newspapers and magazines, science, speech, drama, English and journalism devote innumerable the present school-term began, a right of protest and dissent of each propping of feet are all forbidden the authorities here have interpre-Saturdays to directing and supervising the various sectional meetings.

These high school conferences draw the most talented academic students in the area. College faculty members have the opportunity to a hair cut. The boy and his parents but, rather, it is based upon the grounded upon the conviction that advance the best interests of the meet and know the best high school pupils in that particular section, requested court action to permit him school and its students and faculty. vention. This will free many who wish to attend the state and these are prospective college enrollees.

Without the active support of these far-sighted and devoted faculty standards of dress and appearance freely express himself, this not only ious and sacred enterprise of trying is not evil just because it is authormembers of the higher educational institutions, such conferences could and to enforce them, Judge Herman will bless the individual, but, also, to administer justice between citi- ity. It is the abuse of authority and not be scheduled. The League appreciates this strong support from the Jones of the 53rd Judicial District each individual contributing his zens. colleges in all aspects of the League program, and would like to say made the following observations. uniqueness in mind and spirit will Surely, we can agree that what obnoxious. But in a free society, the "Thank you for the job well done."

## Kecruiting

During the past year, the League, the Texas High School Coaches' Association, Secondary School Principals Association, and the Texas Association of School Administrators have been working with the Southwest Conference, Southland Conference and the University of Houston in an effort to eliminate many of the evils connected with the recruiting of athletes by institutions of higher learning.

Unfortunately, the Southwest Conference, at its recent meeting, chose not to cooperate with the above-mentioned organizations to the extent that was requested.

The number of visits that a college representative may make to a high school athlete is now unlimited. The League and its associates recommended only two visits by any school. The League and its associates recommend that the recruiting season be shortened, but the Southwest Conference allowed the same time as in the past, which is until February 15, 1969. The League requested that no boy be contacted until he has completed his high school eligibility, but the Southwest Conference agreed only to no contact until the boy completed the sports season for which he was being recruited.

The League recommended that no boy be excused from school for recruiting purposes, but the Southwest Conference provides that the boy be excused with the principal's permission for one pre-paid trip by the school to the campus. This places the principal in a very precarious position, as any paid trip to a compus to secure an athletic scholarship is a violation of the League Amateur Rule. All principals should be care- SCURRY-ROSSER HIGH ful not to become a party to the violation of the Amateur Rule.

The Southwest Conference did agree that any contact, direct or indirect, prior to the conclusion of a season in which the boy is being CORSICANA HIGH SCHOOL recruited, is a violation. It should be noted that the acceptance of free tickets to games, transportation, meals and lodging is a violation of Article VIII, Section 8, The Amateur Rule.

Some schools invite athletes to visit their home games as guests, and this is a violation unless the same privilege is extended to every high

school student in that same area. Recruiting under the practices authorized by the Southwest Conference will continue to result in a disruptive influence on the high school athletic and educational program. It is hoped that national regulations can be worked out so the NCAA will eliminate many of the evils of recruiting which are found in the present practices.

## Salvaging Human Beings

One very important function of the League program is to keep boys LIST and girls in school and prevent "dropouts." The records are numerous in regard to the number of boys and girls who have stayed in school and who have passed their scholastic work in order to maintain their eligibility in inter-school contests.

This was emphasized crystal clearly recently when an outstanding Latin American gentleman who now holds an important position in Texas professional circles stated before a large group that he was salvaged through the League's athletic program. He stated that there were eleven children n his family, with no father, and he had no one to emulate. Soon, however, his idols became the high school football players, and through this inspiration he participated in high school football and graduated. His success in athletics allowed him to enter college, where he played football and earned his degree.

From college he went into coaching, and helped salvage human resources. He cited numerous other cases which he personally knew of where human beings have been salvaged and made productive citizens. ARCHER CITY AND What finer tribute could be paid to any program than to say, "It

salvages human beings and makes productive citizens of them."

\* \* \* \* Lord Chesterfield maintained it required six generations to make a KENNEDY OF SAN ANTONIO gentleman, but parents and teachers must make decent citizens in one.

\* \* \* \* Every "A" is a touchdown in the competition against ignorance and, further, the complicated modern world allows few or no "timeouts."

Music Theory Notes

### Handbook Is Coming For Theory Contests

**Music Theory Consultant** 

Because of an upsurge of interest in the State Music Theory Contest during the past months, several people have requested information from this office, and many have asked for back issues of the Leaguer which contained theory columns. This has created a two-headed problem because there are just not that many copies of the back issues available, and the information contained in those columns would be somewhat out of date in view of the changes which are being made in the contest for 1969.

To meet the need which exists, however, we are now engaged in nature with its major and minor culties, it should be available on or are (for contest purposes) ONLY Conference A of the UIL Legislaabout January 1, 1969. Please do FM and Dm.

### **Educational Theatre**

### Texas Drama **Growth Praised**

By ROY M. BROWN **State Drama Director** 

The director of the Secondary Schools Theatre Conference, Bill Cleveland, recently lauded Texas for achievement in the promotion and improvement of secondary school theatre. Cleveland, making his annual report to the SSTC in Los Angeles in August reported the following: "Only one state (Texas) has a specific certification for high school teachers in theatre or drama as a performing art. Only one state (again Texas) has published up-to-date course guides or resource materials for teachers of theatre arts."

These quotes are taken from the Progress Report of Cleveland's survey of "Teacher Training and Certification in Theatre Arts for Secondary Schools of the United States." At the time of the report only 10 state or one-fifth of the survey had been completed. However, to my knowledge, when Mr. Cleveland finishes his report, Texas will still stand at the top of the list of state's for having made the most outstanding advancements in secondary school theatre.

These advancements are a direct result of the dedicated college and consideration. high school drama directors who Incidentally, one thing that caused make this progress. The "vehicle," that some districts scheduled their
