Time Of Beginning Again

An old fairy tale has, as its setting, the "land of beginning again," Adults no longer believe in this land, but every new year brings us an opportunity to take account of our accomplishments and failures, our dreams and our goals.

If the year we have finished has been good, let us be thankful. If it could bear improvement, let us, like the impatient prince in the children's story, try to begin again.

May we take this opportunity to wish for you the double blessings of earning and achieving happiness, of being friendly and finding friends, of setting goals and working toward them, The opportunities we find and the talents we have vary from person to person, but each of us has received 365 days for 1973. We hope you find yours filled with happiness

Upholding the League's Football Code is a serious responsibility, one that is shouldered by every school administrator. It cannot be shirked without accepting the consequences. Pains should be taken to educate parents, students, athletes, and just plain fans that the League cannot, ITASCA HIGH SCHOOL and will not, tolerate abuse of officials.

Disagreement with the officials is, perhaps, the right of the fan, but disrespect, especially when actively displayed, is another matter. It will be dealt with according to League regulations and invariably will end with disqualification, suspension or probation for the responsible school.

Educational Competition

Throughout the years, the University Interscholastic League has been the prime promoter of educational competitions. A few individuals and some schools have objected to the Interscholastic League competitive program in the high schools. These individuals do not realize that school life may unnecessarily shield students from realities. All too often, students have been graduated from high school still ignorant of, and unprepared for, the stiff competitions they will encounter as soon as they leave their own schools.

It needs to be recognized that public schools, through competition for grades, for achievement in athletics, for school honors, for places of distinction, have been serving a most useful purpose in preparing their students for the defeats and the victories to come later in life.

The League, as it pauses to observe its 63rd Anniversary during the 1972-73 school year, is proud of its record, and is looking forward to many more years of beneficial service to the public schools of Texas.

Are Exceptions Justified

Each new school year brings dozens of telephone calls to the MSHSAA office inquiring about the possibility of making an exception to the standards adopted by the school for interest of the Boys' High School Track and standards adopted by the school for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the school Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the schools for interest of the Boys' High School Track and standards adopted by the school T standards adopted by the schools for interscholastic activities. The most LLANO HIGH SCHOOL frequent requests are based on exceptions to the: (1) transfer standards; (2) academic standards; and (3) citizenship standards. The common reason given for asking for most exceptions is that it would be beneficial ONE-ACT PLAY to the individual to be allowed to participate.

When an exception is requested, consideration must be given as to whether it will benefit both the individual and all other individuals. It may have the immediate result of being satisfying to the individual for whom the exception is made, but the question must be raised as to whether his attitude will be influenced more from the experience of MILE RELAY RULES participating than from knowing that he has been excused from meeting a standard that other students meet. Does he sympathize with the player

The mile relay exchange zones and staggers will be changed this year to coincide with NCAA rules. Refer to 1972 or 1973 each track and Field Rules for proper marking. who is sitting on the bench because of his being permitted to participate? Will this lead to later exceptions being expected and the de- SLIDE RULE veloping of an attitude of nonconformity?

Careful attention must be given to the possible psychological effects upon other students who will realize that an exception was made for a LOS FRESNOS-PREMONT HIGH particular student and he does not have to meet a particular standard that others meet. Will this have the effect of minimizing the significance for violation of the Football Code.

Both Los Fresnos and Premont High Schools have been placed on probation in football for the 1972, 1973, and 1974 seasons for violation of the Football Code. and values of standards? If a student is permitted to participate whose NEW CANEY HIGH SCHOOL citizenship is questionable, will this enhance or be detrimental to the developing of proper attitudes toward good citizenship? It is questionable whether an exception will have a good psychological effect upon citizenship is questionable, will this enhance or be detrimental to the this great majority when they finally understand that greater concern DILLEY HIGH SCHOOL has been given to an individual who fails to meet the standards that they meet.

Standards must be reevaluated from time to time on the basis of school year. whether they are in the best interest of the majority. No one individual POTEET HIGH SCHOOL should be given any more consideration than another. When standards are in the best interest of the great majority, exceptions will seldom be

Proficiency Citations

We at the state office try to scan all the incoming papers for several reasons. First, we are interested and they are interesting. Second, we want to find outstanding work and send ILPC proficiency citations in recognition of that superior

At the beginning of the school year the four of us manage fairly well. There is almost enough time nalism educational experience for to look at all of the incoming pa-Dan Rather, CBS Newsman, will pers. Then the tempo picks up and

You can help. If your paper had an outstanding picture, news story, feature, editorial, ad, cartoon, or any other material that is well above the ordinary, you may nominate it for a proficiency citation. Thus we can recognize the top students without having to read all the papers. Just write us a letter, enclosing a copy of the publication with the nominated work, and we will refer it to our awards committee. If they concur, you will receive

the citation. Simple, isn't it.

Convention Again Our convention will be larger, better and more educational than any before. The increased membership indicates that attendance will be greater. We will have about 55 instructional sessions in newspaper, yearbook, public relations, radio, television and the mass media in general. We like to think of this convention as an addition to the great work that teachers do all year

Your suggestions for improving

the convention will be appreciated.

Beagle Is Well My rattlesnake-bit beagle has reovered. Thank you for your cards and letters. He is now snoozing peacefully at my feet. His only action is a quiet snort when I write a particularly complex sentence. Your concern has been passed on

Variety Of Schools Complicates System

By NELSON G. PATRICK

I knew it would happen sometime—the Merry Christmas but should have been in last month's column, but since these things are written four to six weeks prior to publication, it is difficult to always consider the time factor. Anyway—I hope everyone had a Merry Christmas and the best of the New B: Bronte, Louis Thornton; Jayton, Rick

It is difficult to write about rules and regulations 12 days before Christmas but it is a "must."

There are only two kinds of legal entries for organization events: a First Group or a Second Group. Any other designation is not legal and may be rejected by the contest chairman. The use of Third Group, Ninth Grade, Freshmen, etc., to designate second groups is not acceptable. Neither is any other name acceptable that is designed to prejudice the judge or to indicate that an entry is composed of students of limited ages or grade levels.

If the group has limited age or grade levels, it is the result of local of school organization. We have two-year high schools (grades 11 and 12, and several composed of grades 9 and 10) that are separate schools with separate administration. There are three, four and fiveyear high schools, and a few six year schools designated as high

Music Theory Notes

Harmonic Analysis Not On 1973 Exam

By JERRY DEAN Director

TSSEC Music Theory Contest

This column will deal with a subject certain to stimulate the hearts and minds of all patriotic Americans—some aspects of organization, and it is impossible to the 1973 TSSEC Music Theory Exam! (fanfare) Last arrange competition for all kinds month's column provided a list of contents of the exam, but

ers to spend quite a lot of time I hope this will encourage part-Combinations Unlimited

The combinations of junior high school and intermedate schools are almost unlimited. There are junior high schools with a 9th grade, but just as many or more without a 9th grade. Intermediate schools might have any combination of grade levelsels from five through eight, or they might include only one grade levels.

Combinations Unlimited

The combinations of junior high schools are allowed an allyzing, writing, and listening to four-part homophony in the idiom of J.S. Bach. As a teacher of fresh man music theory I wish to discourage high schools, where it might be difficult to give an official music teacher can read the Music Theory Notes Column, write for a copy of last year's exam (write to Jerry Dean, Dept. of Music, UT, Austin, 78712), do a little coaching on music theory basics.

830 High Schools Enroll In OAP

By LYNN MURRAY **State Drama Director**

As of Dec. 1, enrollment was a record 830 high schools for the 1972-73 One-Act Play Contest. This total represents 74% of the 1,123 League high school membership and breaks the OAP enrollment record for the third consecutive year. OAP in 1973 will likely exceed 800 actual participants for the first AAA: Levelland, Merlin Lindsay: Mule-loe, Jim Harvey; Seminole, Sammie ontored is an increase of 20 seks ly Diff. Robertson.
