

## 2021 BEST ROBOTICS CHAMPIONSHIPS

### ABOUT YOUR EVENT HOST

#### **BEST of Texas Robotics (BTR)**

BEST of Texas Robotics (BTR), a 501(c)(3) non-profit, is a front runner in bringing S.T.E.M. (Science, Technology, Engineering, and Math) to the hearts and minds of middle and high school students. BTR works with various organizations, including UT Dallas, to support S.T.E.M. education and help create learning moments by making basic robotics and technology exciting and fun. Partnered with BEST Robotics, Inc. (Boosting Engineering, Science, and Technology), BEST of Texas Robotics is growing local BEST competition sites (hubs) and BEST teams across Texas and our Region. BTR also hosts the University Interscholastic League (UIL) Robotics State Championship - BEST Robotics Division in the late fall each year. Teams qualify at their local hub game day event for the UIL robotics championship. BTR has recently partnered with UIL and Special Olympics of Texas to host the Unified University Interscholastic League (UUIL) Robotics State Championship for those schools who are UUIL qualified. UUIL qualified schools will be able to field and compete in one or both of the UIL and UUIL divisions of BEST Robotics. The third championship hosted by BEST of Texas Robotics is the BEST Regional Championship. This division is open to all schools who qualify through their HUB event, but are neither UIL or UUIL qualified schools.

BTR strives to positively impact education systems across Texas and the United States, encourage students into science, technology, engineering and mathematics (STEM) careers, and return real value to our volunteers and sponsors. As a non-profit, we rely on donations and volunteers to bring the three robotics championships to our student competitors annually. If you would like to donate, please follow the QR code below. If you would like to Volunteer for next year, please contact us at:
