Remember 5
And Stay Alive

Severe Weather

1. GET LOW
   Go to the lowest level of the building, if possible

2. AVOID WINDOWS
   Stay away from the windows

3. GO TO INTERIOR
   Go to interior rooms and hallways

4. PROTECT YOURSELF
   Use arms to protect head and neck in a “drop and tuck” position

5. STAY IN THE KNOW
   Monitor emergency communications for specific instructions: utexas.edu/emergency
SHELTER IN PLACE
For weather:
1. Go to the lowest level of the building if possible.
2. Stay away from the windows.
3. Go to interior hallways and rooms.
4. Use arms to protect head and neck in a “drop and tuck” position.
5. Monitor emergency communications for specific instructions at utexas.edu/emergency.

For environmental incidents (chemical, biological, or radiological releases):
1. Go inside the nearest building.
2. Close all doors, windows, and other inlets from the outside.
3. Shut down the fresh air intake or HVAC system if possible.
4. Monitor emergency communications for specific instructions at utexas.edu/emergency.

CALL 911 WHEN IT IS SAFE TO DO SO
**EVACUATION**

All occupants of university buildings are required to evacuate a building when a fire alarm and/or an official announcement is made indicating a potentially dangerous situation within the building.

**Classroom Evacuation for STUDENTS**

All occupants of university buildings are required to evacuate a building when a fire alarm and/or an official announcement is made indicating a potentially dangerous situation within the building.

Familiarize yourself with all exit doors of each classroom and building you may occupy. Remember that the nearest exit door may not be the one you used when entering the building.

If you require assistance in evacuation, inform your instructor in writing during the first week of class.

**For evacuation in your classroom or building:**
1. Follow the instructions of faculty and teaching staff
2. Exit in an orderly fashion and assemble outside
3. Do not re-enter a building unless given instructions by emergency personnel

**Classroom Evacuation for FACULTY AND TEACHING STAFF**

University faculty and teaching staff are responsible for implementing university emergency policies and procedures, and for informing students of their classrooms’ building emergency evacuation routes, exit doors, and emergency procedures at the beginning of each semester.

Each university faculty and teaching staff member should provide the information listed in “Classroom Evacuation for Students” to students at the beginning of each semester through instruction and/or syllabus information. Emergency evacuation route information and emergency procedures may be found at utexas.edu/emergency.

Students requiring assistance in evacuation should inform their instructors in writing during the first week of class. Instructors must provide this information to the Fire Prevention Services Office by email: admin.fireprevention@austin.utexas.edu.

**For evacuation in your classroom or building:**
1. In the event of a fire or other emergency, it may be necessary to evacuate a building rapidly. Upon the activation of a fire alarm or the announcement of an emergency in a university building, all occupants must evacuate and assemble outside.
2. If a “Lockdown” is announced, implement lockdown procedures as listed (see reverse side for more info).
3. Once evacuated, no one may re-enter the building without instruction to do so from the Austin Fire Department, University of Texas at Austin Police Department (UTPD) or the Fire Prevention Services Office.
4. Ensure other occupants of university buildings are aware of emergencies and help anyone requiring assistance in evacuation as long as it is safe to do so.

**Building Evacuation**

Evacuate the facility upon hearing the alarm or official announcement.

1. Close office doors and turn off lights and computers.
2. Use designated corridors and fire exit stairs that lead to ground level. Leave the building in an orderly manner. Do not use elevators.
3. Assemble in designated areas per the Building Emergency Plan. Upon reaching the ground level, stay at least 300 feet (1 block) from the building.
4. Follow instructions of emergency personnel. Report any individuals left in the building to them.
5. Do not re-enter the building until an “All Clear” announcement is given by emergency personnel.
**ACTIVE SHOOTER RESPONSE GUIDE**

**RUN**
If you determine that you can reach an escape path to a safer area, then get out.
1. Be aware of your surroundings.
2. Have an exit plan.
3. Move away from the threat as quickly as possible.
4. Create as much distance between you and the threat as possible.

**HIDE**
If you can’t evacuate, find a secure place to hide out.
1. Create distance between you and the threat.
2. Find barriers to prevent or slow down the shooter from getting to you.
3. Turn off the lights and silence your phones.
4. Remain out of sight by hiding behind large objects.
5. Be quiet.

**FIGHT**
As a last resort, if you can’t hide out and if you have absolutely no other option, confront the active shooter.
1. Be aggressive, yell, and commit to your actions.
2. Do not fight fairly - Throw items and use improvised weapons.
3. Survive by any means necessary.

**WHAT TO EXPECT FROM RESPONDING POLICE OFFICERS**
When officers arrive, be prepared to calmly, quickly, and accurately tell them what they need to know:
1. Location of the shooter
2. Number of the shooters, if there’s more than one
3. Description of the shooter
4. Number and kinds of weapons they have

Follow the officers’ instructions. Officers will take command of the situation by shouting orders and/or physically directing individuals to a safe place or the ground.

The first responding officers’ main objective is to stop the active shooter and create a safe environment for medical help for the injured. Officers who arrive later will help identify victims that need medical care and conduct interviews and counseling.

**NOTICE CONCERNING BEHAVIOR?**
It is the university’s goal to prevent any unsafe situations before they happen, so we encourage you to report all suspicious behavior and concerns as soon as you notice them.

If you experience any immediate threats to your safety or the safety of others, call 911.

If you notice concerning behaviors in a friend, coworker, or classmate, call the university’s anonymous Behavior Concerns Advice Line at 512-232-5050. You can learn more about BCAL at besafe.utexas.edu/behavior-concerns-advice-line.

Encountering an active shooter in your place of work or study is unlikely, but it never hurts to prepare for the unthinkable.

An active shooter is an individual, or multiple individuals, actively engaged in killing or attempting to kill people in a confined space or highly populated area.

In most cases, active shooters use firearms and choose their victims at random with the objective of killing as many people as possible.

Active shooter situations can change quickly and unfold rapidly. In order to stop a shooter and minimize harm to a community, an immediate response by members of that community and deployment of law enforcement resources is critical.

In the instance of an active shooter, every second counts. So, remember these three key steps: RUN, HIDE, and FIGHT.
