

Word Power

High School Spelling & Vocabulary List and Rules for 2015-2016

UNIVERSITY INTERSCHOLASTIC LEAGUE
Making a World of Difference

The Details...

Word Power was compiled using The American Heritage Dictionary of the English Language, third (1992) and fourth (2000) editions. Each word was checked for possible variant spelling, capitalization, and parts of speech. Word Power reflects several decisions made for consistency and clarity.

SPELLING & PRONUNCIATION

If a word has more than one correct spelling, all spellings are listed, separated by a comma (frenetic, phrenetic). Students are required to spell only one variant. Although every attempt has been made to list all alternate spellings, some others will undoubtedly be discovered. The American Heritage Dictionary of the English Language, Third, Fourth or Fifth Edition is the final authority, not Word Power or the test lists.

In order to make it easier for contestants to determine the correct pronunciation of words with variable suffixes, the following guidelines are used. If the addition of a letter does not change the pronunciation of a word, the additional letter(s) may be placed in parentheses at the end of a word, or the second spelling is given on the same line. For example dialog^{ue} may also be spelled dialog; therefore, the listing in Word Power is dialog^{ue}, dialog. An entry such as pedagog^{ue}, paedagogue would indicate three acceptable spellings. On the other hand, holographic and holographical are forms of the same word in the same part of speech, but they are pronounced differently. These words will be separate entries.

Parts of speech and brief definitions or explanations are offered to distinguish the word from others which may be spelled differently. During competition contestants must spell the form pronounced. Where it is necessary for clarification, the pronouncer will define the word when it is pronounced. Even though another correct form of the word is written, it will be an error. Words with the same parts of speech and meanings but different pronunciations will appear on separate lines in Word Power.

CAPITALIZATION

If a word can begin with either a lowercase letter or a capital, both versions are given. It is the responsibility of the contestant to know in what circumstances to use lowercase or capital letters. Both the unnecessary use of a capital or its omission are considered errors.

MARKINGS

The English language includes words taken directly from foreign languages without changes in spelling. Marks assumed to be accent marks for syllables are really guides to the proper pronunciation of vowels; therefore, in order to spell the words correctly, it is necessary to use these marks accurately. For example, the French word *dégagé* is pronounced DAY gah ZHAY. The acute accent (´) is usually pronounced as the a in late or date. The grave (`) and the circumflex e (^) are pronounced as the e in peck or deck. The grave and circumflex a give the a sound of ah as in paw. Other commonly used pronunciation guides are the German umlaut (¨) and the Spanish tilde (~). Because the selection of a mark, such as a pronunciation mark, and its proper placement are necessary for the correct spelling and pronunciation of foreign words used by educated Americans, improper usage of accent marks or marks such as umlaut or tilde is considered a spelling error.

VOCABULARY

Approximately 350 words have been selected for vocabulary study and are designated by the symbol •. For example:

778. kookaburra •

Contestants will be responsible for the spelling, meaning, and derivation of these words. Question formats may vary from one test to another in order to provide the best method of testing the material.

Any questions regarding the correct spelling of words should be directed to the League office. Corrections to Word Power are listed in the "Official Notices" section of The Leaguer and posted on the academic webpage at: www.uiltexas.org/leaguer.

Sample test...

(with questions from a previous year's test)

Part Ia Proofreading: 15 Points

This is a test to determine your ability to recognize misspelled words. In each of the following sets, one word is incorrect. Errors may be in capitalization, accent marks, hyphens, or in spelling. Most of the words are from the general and the vocabulary lists in UIL WORD POWER; however, up to 20 percent may be from other sources. Do not correct words with alternate spellings if the word shown is a correct form of the word. Write the word correctly in the numbered blank at the right. Each blank is worth one point.

1. Clausewitz Omnipotent Walpurgis Night 1. _____
 Diaspora Devil's advocate
2. pantofly ring-necked pheasant Wisteria 2. _____
 discursive printer's devil
3. tachycardia incommodious octillionth 3. _____
