iTunes and Spotify Information

The preceding pages contain iTunes and Spotify links to the 2018-19 UIL Music Memory selections. These recordings were used to prepare the Music Memory Passport and the Official Clip Tape for the Music Memory Competition.

Teachers may purchase and download the selections from iTunes to create practice CDs for their students. The recordings are NOT part of this publication.

You will need to set up a Spotify account in order to access the music. Spotify currently offers a free subscription model that includes advertising, or paid subscription options that are ad-free and have additional features. There are also Spotify apps available for multiple platforms and devices.

A Note on Streaming Services

Streaming services are subscription-based, meaning you have access to their whole catalog as long as you are a subscriber but lose access if your subscription expires. It is not possible to burn CDs with music accessed through the free streaming services. In order for students to be able to listen to music at home through a streaming service, they will need to have access to their own account. Keep in mind that there are minimum age requirements for setting up accounts with services such as Spotify, so parental assistance would be necessary. A sample note for parents is included in the Correspondence folder.
