Operating Costs

- Hosting/website professions cost \$350 a year
- If you don't already have professional camera equipment, that will be an upfront cost you'll have to cover before starting (we started with one T2i and invested in a 70-200 lens. We built from there. We now use Canon 90Ds, 7Ds, and a Mark III. Biggest investment is good lenses. YOU have to get a 24-70 2.8is, a 70-200 2.8 is, and several 40mm or 50mm 2.8 primes. Other than that, some NICE things to have for portrait and long range sports: 300 is 2.8 (6,000+), 85mm, 35mm
- Also, you'll need to have software: Lightroom is great (can use Bridge to organize and sort before toning/editing, Photoshop for

Operating Costs cont...

- Cameras (Canon)
 - 4 7D Mark IIs
 - 5 90 Ds
 - 1 5D Mark IV
 - 2 EOS Rs
- Lenses (Canon)
 - 5 70-200s 2.8

- [LINK FOR RELEASE FORM WE USE](#)

FAQ

Q: What kind of camera equipment should we look at purchasing?

A: 70-200 f/2.8s will be your bread and butter. Anything short of that and you will struggle to photograph most sports. As for camera bodies, at least a Canon 7D is ideal, however we have utilized Canon Rebels Ti series and above and some Canon 100M mirrorless for basic school activities or school life shots

USE THE CAMERA YOU HAVE WITH YOU! The newer

FAQ

Q: What should we do when friends, parents or kids ask for FREE/give away photos?

A: You need to shut that down as quickly as you can. People need to understand that you have invested \$1000s into photo equipment in order to capture those images. **Explain it is against policy and tell them they can go see the photos on the website** - make sure they can access that way.

B: Handle this responsibly and professionally

FAQ

Q: Should we create a photo membership program?

A: Although it is a lot of work keeping the galleries up to date, it is a great supplement to the sales we already make from SmugMug. BUT community will expect whatever you do. Be sure you can follow up and consistently deliver the product before you make this

FAQ

Q: Why should we have our own domain name for our SmugMug site?

A: It makes it easier for your potential customers. It also helps create a brand for your organization. Ideally your SmugMug website would look like an extension of your main website.
