

Instructions for Transferring the Digital Files

Title Convention: Division # - Category - High School Name - Title of Film

Video File Extension/wrapper: .MP4 or .MOV

Resolution: 1920x1080 (if you shot in 2K, 4K or above, you will have to downscale for projection)

Audio: 48 kHz 24-bit audio

Frame rate: 24 or 29.97 (but keep in mind that the final timeline will be set at 24FPS - that is also for traditional/computer animation projects)

Codec: H.264 or Apple ProRes 422 (if you use Avid, you can use Avid DNxHD)

NOTE: Please check that your sound is in sync BEFORE you upload the file, and that all your video has rendered properly. Also for animation projects, double check you do not have any visible artifacts in the final export. Thanks!

These are the instructions for transferring the digital files to Tania Romero at Austin ISD, film editor for the presentation. She will send sponsors an email with the DROPBOX link.
