STAGE DIMENSIONS: Stage is 29 ft. deep from proscenium wall to rear traveler, and 39 ft. to rear wall. The proscenium is 50 ft. wide by 24 ft. high. The main drape can be brought in, as can the mid traveler to decrease stage size. The stage manager's panel is located stage right.

We will have someone assist your sound console operator during your rehearsal and performance. Our soundboard is a Yamaha LS9-32 (digital). Communication from stage to booths is available.

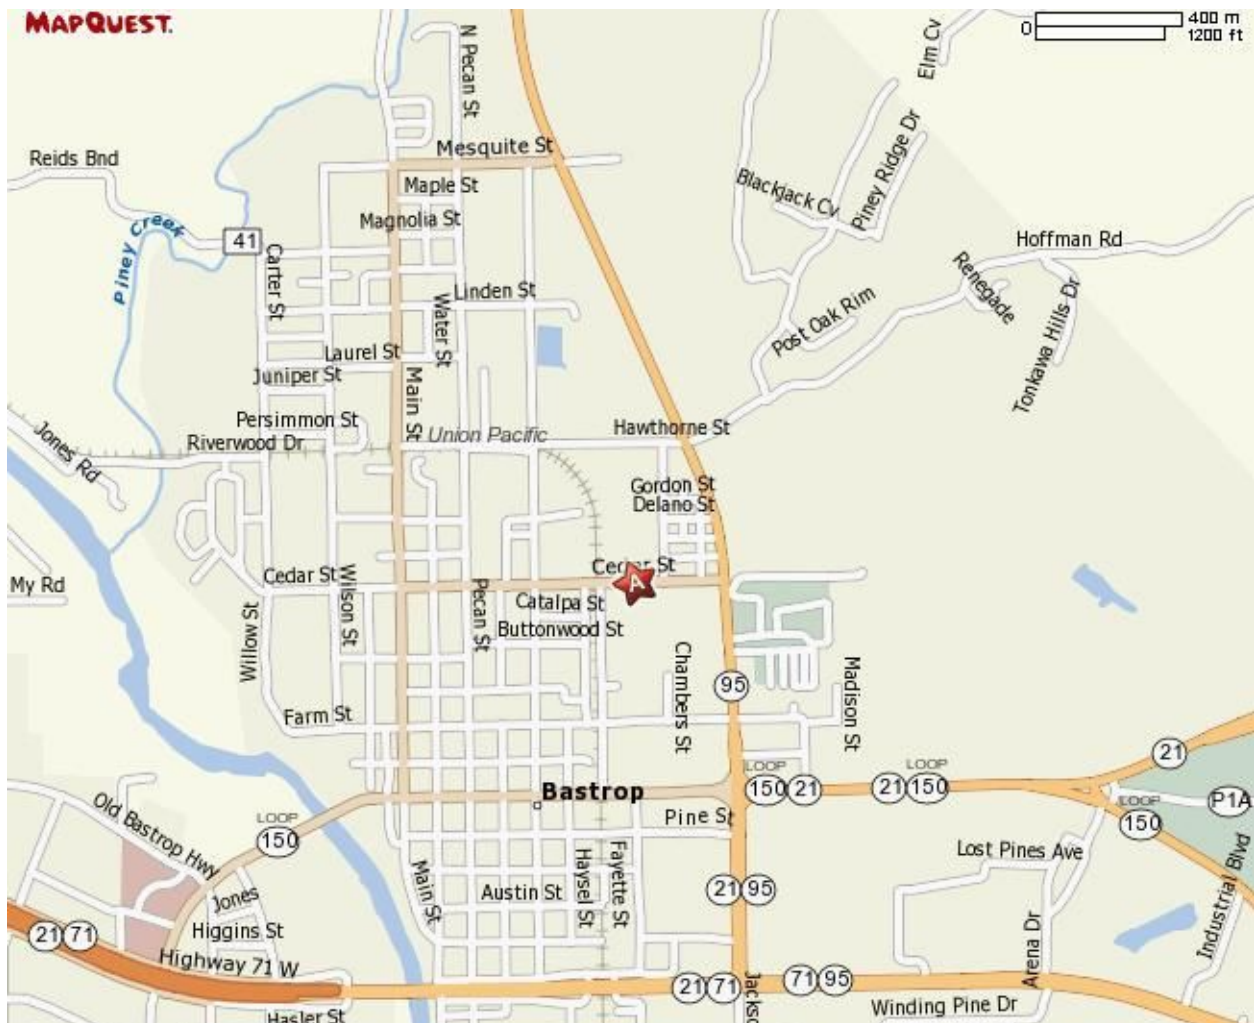

LIGHTING: We have an ETC Ion Board with a 2x10 and a 2x20 fader wing. There are two spotlights at the rear of the theatre for your use. We will have someone assist your light operator during rehearsal and performance. A light plot is included with this form and shows the areas. Each area will be lit with two instruments and each area has a twelve (12) foot diameter. Our cyc lights have a RGB (red-green-blue) configuration. There is also a blue wash and red wash available.

DRESSING ROOMS – THE JFW PAC only have two available areas for dressing rooms, which will be used as school holding areas. **Be Aware, that the Black Box Theatre will be split with a partition and will host two schools, as will the greenroom.** This will allow us to accommodate all six advancing companies. For this reason, students will likely have to get into costume in Lobby bathrooms. We realize this is not ideal, but it is the limitation of our space. In the event this is necessary, please limit moving around in the lobby in costume.
