

Best Practices in Tackling *Online Certification Procedures*

To begin online certification, you will either need to have a THSCA membership ID, or you will need an ATAVUS ID through the UIL/RMA portal. Below are the steps to register for the online training using one of these two methods.

To register for online certification using your THSCA membership ID:

- 1) From April 1 to July 1, visit <https://www.atavus.com/texas>. There you will be redirected to the online certification website. Register with ATAVUS and gain access to the online certification.
- 2) When you're ready, complete the online certification. The online certification will cover 3 main concepts. Each section of the certification course ends with a short, three-question quiz you must complete in order to move onto the next section of the course.
- 3) Upon completion of the course materials, you will take the final exam to demonstrate your retention of the Level 1 – Tackle Certification content. The final exam is 30 questions.
- 4) Once you've finished the final exam, you will instantly receive your results. Results will also be posted in the UIL portal a few days after you complete the training.
- 5) If your results indicate that you successfully completed certification, you will have access to the ATAVUS Digital Coaching Academy, coaching resources, and a copy of your tackling certificate.
- 6) If your results indicate that you did not successfully complete certification, you can retake the final exam immediately. Access to the coaching resources is limited to coaches who have successfully completed certification.
