Officials: Justice and Miller

AUSTIN, March 12 --- Fay Shumbera's basket with 13 seconds remaining brought Victoria a hard-won 61-60 Class AAA victory over Jasper and a spot in the girls' championship game Saturday night.

That last basket broke up a stirring game that had been tied five times, and in which the lead had changed hands no fewer than 14 times. Victoria had to stage a terrific comeback, being down six points at 47-41 with just less than five minutes left in the game.

Shumbera's winning basket gave her 48 points for the night. Donna Lou Ratcliff led the losing Jasper team with 38.

Jasper held a 54-49 advantage with 2:33 left. Victoria still trailed 58-55 with 1:02 remaining. But a basket by Shumbera at 0:50 cut it to one; she scored again at 0:40 to give Victoria the lead; then, after Jasper went back ahead on a basket by Ratcliff with 0:30 remaining, Shumbera hit the winning points. Jasper had one last chance, but failed.

The win puts Victoria in the AAA finals Saturday at 8:50 p.m. Jasper will play for third place at 11:40 a.m.

Since AAA is a new classification in UIL girls' basketball this year, Shumbera's 48 automatically became a conference scoring record.
