2023-24:

There is a two-week testing window for each STAAR content-area grouping. The primary testing week is week 1 of each two-week testing window. For UIL post season activities affecting high school testing schedules, STAAR end-of-course assessment testing windows are:

- April 9–Apr 19 for English I and English II
- April 16–Apr 26 for Biology and U.S. History
- April 23–May 3 for Algebra I

For UIL post season activities, districts and campuses that are participating in the specific UIL activity should collaborate and follow the guidance below to determine the best dates.

- Avoid scheduling the UIL post season activity during the primary testing weeks, if possible.
- Avoid scheduling English I and English II tests April 9–12; instead, schedule these tests April 15–19.
- Avoid scheduling Biology and U.S. History tests April 16–19; instead, schedule these tests April 22–23.
- Avoid scheduling Algebra I April 23–26; instead, schedule this test April 29– May 3.
- Administer make-up tests later in the testing window to individual students who participate in the UIL post season activity and are absent from testing.
